Industrial Technology World Asia Vietnam 2026 (ITWA Vietnam 2026) concluded successfully at the Vietnam Exposition Center (VEC) from August 5-7. Centered on the development demands of manufacturing industries across Vietnam and Southeast Asia, the exhibition served as an integrated industrial platform for technology demonstration, business matching and trend-sharing. It covered six themed sectors: VISION+ROBOT VIETNAM, NEPCON ASIA VIETNAM, ASIA ELECTRONICS SOURCING SHOW, FILM & TAPE VIETNAM, ADHESIVES & CHEMICALS VIETNAM, and CONNECTOR-CABLE-HARNESS PROCESSING MACHINERY. Over the three-day event, the show welcomed 9,400 professional visitors, while concurrent conference sessions drew 896 attendees. A wide range of domestic and international enterprises covering electronics, semiconductors, new functional materials, automation and other industry value-chain segments showcased their offerings across these themed sectors. Through product displays, specialized forums and face-to-face business discussions, the event facilitated technical exchanges and collaboration, injecting momentum into the industrial-technology upgrading of Southeast Asia and delivering fruitful outcomes.

EXHIBITOR COMMENTS

Andrew Lu
Sales Director
Panasonic Singapore

This is our first-time exhibition participation in Vietnam. The overall experience has been excellent and exceeded our expectations. We look forward to taking part in the show again next year.

Stanley Mo
Market Initiative Manager
Keysight

Compared with other trade shows I have attended in Vietnam, ITWA Vietnam delivered higher-quality attendees, bringing great value for our business development.

Will Lee
Sales Manager
Vermes Microdispensing

Participating in ITWA VIETNAM 2026 has yielded fruitful results. Vietnam boasts strong demand for electronics manufacturing. We connected with purchasers and engineers from multiple local factories, gained first-hand insights into local smart manufacturing upgrade opportunities, and built high-quality customer resources for our company's market expansion in Vietnam.

Hu Limin,
Vietnam Regional Marketing Director
GUANGDONG FEIXINDA INTELLIGENT
EQUIPMENT CO.,LTD

As a first-time exhibitor at ITWA Vietnam, FEIXINDA was satisfied with the onsite visitor traffic delivered by the exhibition. The team secured several prospective business leads and achieved strong brand exposure through participating in the event.

VISITOR COMMENTS

Production Manager of Honda Vietnam

ITWA event was held in a spirit of win-win cooperation. We wish the Vietnam-China partnership great success and continued prosperity!

General Manager of LG

ITWA This event is really valuable. I hope to attend this event again next year with greater success.

Director of Benew Co., Ltd

The conference and forum featured rich, informative content that closely aligned with the latest industry trends. We hope the cooperation between Vietnam and China achieves even greater success and yields abundant fruitful results!

Director of IMP Vietnam Trading

Through this exhibition, we were able to connect with many additional suppliers related to the tape industry. We sincerely hope to have more opportunities to attend large-scale exhibitions like ITWA VIETNAM in the future.

A PARTIAL LIST OF TAP BUYERS AND DELEGATION

TAP (Targeted Attendee Program) is ITWA's dedicated buyer program. Our TAP Team sources high-potential decision-making buyers, validates their 12-18-month procurement budgets, and delivers year-round one-on-one matchmaking. It fosters business deals and partnerships for both exhibitors and buyers.

ACTIVITIES AND HIGHLIGHTS

A wide-ranging lineup of concurrent activities was delivered alongside the exhibition, including six specialized thematic forums, one technical competition, robot dance shows, Happy Hour networking reception and lucky draw sessions. These diversified activities brought great added value for visitors by combining technical learning, talent development and business connection.

Co-hosted with key local Vietnamese industry associations, the forums featured high-profile speakers covering electronics manufacturing, SMT technology, AI, smart manufacturing, green factories, die-cutting, advanced materials, investment.
